THE FRENCH TOUCH
THE CUSTOMER EXPERIENCE: AWAKENING THE SENSES

In JVD’s hospitality universe, accessories make each room unique and transform a hotel stay into an experience in and of itself. Every day, we innovate to provide hotel guests with accessories that combine functionality, technology, safety and ergonomics. JVD’s Hotels accessories have become musts at hotels around the world.

SILENCE IS GOLDEN

Our minibars are 100% silent to guarantee absolute comfort for our users. Powerful yet quiet, your guests will forget they’re even there.

JUST LIKE DAYLIGHT

Without natural lighting, getting ready in a bathroom is never an easy feat. Our range of mirrors was designed to simplify your guests’ lives.
SMELL THE DIFFERENCE

Olfactory marketing has got past its early days, and the importance of a place’s scent has been well established. In your hotel’s foyer or its common areas, or for a gentle wake-up with Sensorwake, treat your guests to a unique experience.

TOUCH ON SIMPLICITY

Our easy to use hair dryers simplify your guests’ daily routines with a feeling of robustness and gentleness in handling, a concentration of technology and a design which leaves no one indifferent.

FOR EVERY TASTE

For a cup of tea on arriving in the room after hours on a plane or a quick coffee before jumping on the subway, discover our trays, kettles and espresso machines suited to any wish, any moment and any style.
INNOVATION IN THE SERVICE OF WELL-BEING

The strength of JVD resides in our provision of accessories adorning hotel rooms around the world for more than 30 years. JVD accessories help to personalize hotel rooms, giving them the final touch to ensure guests’ well-being. Accessories are what truly make a difference.

VALUES AND TALENT

KNOW-HOW
Backed by 35 years of experience, our teams have fully mastered the design and manufacturing processes. Our teams conceive, design, manufacture and rigorously test our products. From receipt of the smallest component to customer service, our solid industrial processes guarantee the quality you have come to expect from JVD. We want to provide all our clients with the best possible service and to offer everyone products which are useful, ecological, practical and attractive.

At JVD, there is no room for boredom. We are proud to present our catalogue of 2020 collections to you, just brimming with new items: JVD does not believe in simply copying and pasting! Our team have been working tirelessly in Nantes, Singapore, Alicante and Mexico to offer you and your customers enhanced well-being.

User comfort is our priority. With our products, we celebrate the “French touch” (French-style hospitality). Our hotel collection focuses the customer experience on the five senses so that a hotel stay can become a sensory experience synonymous with well-being. You will find those promises of poetry as you flip through this catalogue. Light, reduced noise, ergonomics and more; our accessories innovate to satiate the senses.

Innovation at JVD is also aimed at sustainability. Each product in this catalogue was designed to last and to be recycled, and all our manufacturing processes are carefully considered in order to reduce their impact on the planet. Because JVD is an engaged company, now more than ever.

Our team has expanded to include new people and new expertise so that we can continue on our trajectory and always satisfy you. JVD’s products are designed for you, and thanks to you, we are able to enhance them. We are here to listen to you so we can understand your needs. We also hope to surprise you with our 2020 collection.

Thank you for trusting us with your business.

Thierry Launois, JVD CEO

THE JVD GROUP HAS OPERATIONS AROUND THE WORLD THANKS TO LOCATIONS IN EUROPE, ASIA AND THE AMERICAS.
Responsibility
In an era when planned obsolescence has become the norm, JVD is committed to providing sustainable products to our clients. We are convinced that the strategy of today should be to improve the strategy of tomorrow. Between design, manufacturing, transport, use, customer service and recycling, each step in JVD’s production of our accessories is organized down to the smallest details so as to conserve resources. All the employees at JVD now are driven by a commitment to our planet’s future.

Innovation
Our power of innovation is enriched by 35 years of expertise on our R&D team and by our partnerships. Our in-house R&D team continuously develops new solutions to put innovation to work for user well-being. Over the years, our research office has worked with the biggest names and fresh talent from French industry to create enhanced-performance hygiene and hotel equipment and accessories. The result of three years of internal research, followed by close collaboration with future users, Hygiaconnect is the embodiment of JVD’s innovativeness. With the rapid advancement of smart cleaning, JVD is inventing the hygiene of tomorrow, today.

**COMMITMENT TO RESPONSIBILITY**

Eco-responsibility has become one of JVD’s pillars in recent years. The company’s commitment on this subject only grows stronger every day and now concerns each of its different levels. JVD is dedicated to the idea of transmission and makes it a point of honour to play an active role in an ecological transition which looks out for everyone’s well-being.

**BORN TO BE GREEN**

You might think we’re mad but, if our products lasted 20 years without you having to replace them, we would be thrilled! At JVD, we design quality products meant to withstand the test of time.

**WORKING AND PRESERVING**

We are convinced that the strategy of today should be to improve the future of tomorrow. All the teams at JVD strive actively to think of everything and to make a real difference. From design to manufacturing, transport to use and customer service to recycling, we know that each detail counts.

**ECO-DESIGN**

Kettles which come in smaller sizes help to reduce water usage, minibars fitted with a heat absorption system which generates no greenhouse gases, and trays made of FSC certified wood (from sustainably managed forests).
At JVD, our products are designed and tested to be repairable and to repair them. Our appliances’ spare parts are available for 10 years. Quality products meant to work and be used for the long term.
CHOOSING THE RIGHT HAIR DRYER

AN ESSENTIAL ACCESSORY

Long obligatory at 4-star and higher hotels, hair dryers are now becoming increasingly crucial for any hotel. According to a study by the CMHF (Committee for the Modernization of French Hotels), hair dryers are appreciated by more than 2/3 of the surveyed guests. They are the bathroom accessory which guests miss the most when not available. Additionally, the CMHF revealed that: “Guests, particularly female guests, are very fond of them. It means they do not have to bring their own, which is necessarily impractical when travelling.”

A QUESTION OF POWER?

Contrary to preconceptions, the choice of a hair dryer is not a question of power. Although power can be a good indicator, some appliances are designed to yield a superior quality of drying despite having less power and so using less energy. In addition, very hot, powerful drying is not suitable to all hair types. As a result, it is important to offer solutions to guests which allow them to adjust the speed and heat of the hair dryer.

SOLUTIONS WHICH ALLOW GUESTS TO ADJUST THE SPEED AND HEAT OF THE HAIR DRYER.

CONSTRANTS SPECIFIC TO HOTELS

A hotel’s hair dryers are not subject to the same constraints as hair dryers marketed to the general public. Outside the strict standards which must be met, hotel hair dryers may sometimes be used in unintended ways (theft, to dry clothes, shoes, etc.). And so they should be designed to limit those uses (e.g. JVD LightTouch handle, timer, anti-theft protection, etc.). They should also fit stylishly into bathrooms by means of a dedicated support which can also be used to offer shaver sockets suitable for an international clientele.

IONIZER – IONIZING SYSTEM

Some hair dryers include an ionizing system. The generated ions neutralize the static electricity that can appear on hair while drying it. This lower temperature system greatly improves the speed of drying.

THE GENERATED IONS NEUTRALIZE STATIC ELECTRICITY

VOLUME AREA 2?

To protect your guests against the risk of electrocution, standard NF C 15-100 defines the required distance between electrical appliances and the main water tap (bathtub or shower). Only hair dryers with hoses can be installed close to them (volume area 2). All other devices must be installed as well as possible in volume area 3.
RANGES

MIRRORS

Our mirrors are the result of a special alchemy melding innovation, performance and design. They invite guests to enjoy a unique experience with complete simplicity.

NO ELECTRICAL CONNECTION REQUIRED

Our Cosmos, Galaxy and Eclips mirrors run on a lithium battery and a 3 minute auto off system ensuring longevity of 3 to 5 years. Offering complete electrical safety, they can be installed in any volume area of the bathroom.

TILTABLE TO ANY ANGLE

Thanks to their double or triple rotational axis, our mirrors offer your guests the best possible reflection.

DESIGNED AND MADE IN FRANCE

Concocted by our Design Department specifically for use in hotel bathrooms, our illuminated mirrors are made in Nantes (France).

A WORD FROM THE DESIGNER

Mirrors invite us to enter a new dimension. The magnifying function of a mirror allows us to enter into a universe where everything is bigger. I wanted this voyage to take us even further, so I drew inspiration from flying saucers in designing this mirror. I added a revolutionary battery operated "motor", unique on the market. I structured the whole thing around a chrome base, to which I added a ring of light like the ones around Saturn. And lastly, I added an almost magical capacitive switch.

Jean-Guy de Russé

ECO-RESPONSIBLE

Our illuminated mirrors are fitted with LED lighting to maximize their lifespan without having to change the bulbs and to reduce their energy consumption.

AN ADJUSTABLE, FLEXIBLE CONCEPT WHICH MAKES IT EASY TO CONVERT A BATHROOM THANKS TO REMOVABLE AND INTERCHANGEABLE ELEMENTS.

Comprising removable and interchangeable elements, this range enables the evolution and conversion of bathrooms, easily and without any technical work, based on individual needs, to switch from a classic shower space to a comfortable, safe space accessible by people with reduced mobility. The adjustable, flexible aspect meets the constraints facing hotels, retirement homes and municipalities, where the bathroom can be used by anyone. The design of the proposed products also has a non-stigmatizing effect thanks to the universal aesthetics.

PRODUCT ADVANTAGES

- Interchangeable equipment as per user needs
- Absolute space savings
- Ergonomic and easy to install

CHARACTERISTICS

- Tolerated CE load: 150 kg
- Lab tested with a load of 225 kg

MINIBARS
HOW TO CHOOSE THE RIGHT MINIBAR

Our minibars are fitted with next-gen smart technologies. Whether they use thermo-absorption or thermoelectric systems, our minibars are eco-friendly, reliable and completely silent.

THE JVD SELECTION

THERMO-ABSORPTION

Next generation thermo-absorption minibars blend the Peltier effect with absorption to generate cold. They are ecological, reliable and completely silent, consuming 66% less energy and therefore quickly offsetting the slightly higher cost (in less than a year).

OTHER TECHNOLOGIES

THERMOELECTRIC / PELTIER

Thermoelectric minibars use the Peltier effect to generate cold. They are very reliable but relatively noisy. Their temperature is not adjustable, and they consume relatively high quantities of energy.

COMPRESSION

Compression minibars use a refrigerant to cause cooling by compression. They are effective and affordable but are often loud and tend to suffer wear and tear on the mechanical parts.

ABSORPTION

Absorption minibars generate cold by heating a mixture that contains ammonia. They are very affordable, reliable and totally silent, but they sometimes require complete ventilation at the back and may emit a strong ammonia smell in the case of a leak.

SAFES
SAFES

JVD safes are synonymous with peace of mind. Your guests have access to a robust, secure solution for their belongings. You have JVD solutions and service for the simple, easy management of your safes.

**ILLUMINATED**

Our safes are designed with a backlit keypad and interior lighting to make it simple and easy to use.

**SECURE**

Our safes are fitted with an electronic anti-aggression mechanism & are blocked for 15 minutes after 4 failed attempts.

**PRACTICAL**

If your guest loses their code, our safes can be unlocked using a key or a remote control.

**SMART**

Thanks to the remote control, it is easy to view a history of actions (records of the dates and times when the safe was opened) and to unlock the safe.

**A WORD FROM THE DESIGNER**

Fortress is a new safe created to be effective. It is the fruit of an obvious design. To reflect a spirit of tradition and to provide reassurance, a very simple general design was created: a circle in a rectangle, the very symbol of a safe.

Thanks to a very refined treatment of the design, the product possesses a very modern, timeless dimension. Two other strengths make the product rather ingenious: the very discreet grip to the left of the front plate and a slightly tilted keypad to improve ergonomics when the product is installed at a low height.

WELCOME TRAYS
TRAYS, KETTLES
& ESPRESSO MACHINES
WELCOME TRAYS

Elegance, design and ergonomics: the threefold expectations which inspire our products. Over a cup of hot chocolate, tea or coffee, each moment becomes a time of comfort, relaxation and well-being.

TRAYS

The essential accessory to showcase your welcome products and to put the final touch of design on your rooms. Our broad range of trays made of wood, leather or melamin ensure there is something to suit any environment. With the possibility of incorporating the base of one of our kettles, they combine to form a perfect whole.

KETTLES

Developed wholly in France by our Design Department in a combination of functionality, elegance and clever technology, our kettles will be able to accompany your guests’ morning wake-up routines and moments of relaxation. Conceived specifically for hotels, they are also easy on your teams.

ESPRESSO MACHINES

Our machines are designed to offer a simple solution which will make delicious espresso for your guests. No need for a dedicated space: thanks to their small size, they can fit anywhere. The options offered by our espresso machines provide something for any urge, any moment and any guest.

A WORD FROM THE DESIGNER

In recent years, we have witnessed a profound change in hotel room design. We have shifted from often stereotypical settings to places for experiences. For guests, the time spent there should be atypical, personal and sometimes even surprising. Our products’ design further contributes to this new trend. Arranged in increasingly varied environments, they add their own aesthetic touches whilst either fitting in seamlessly or boldly standing out. Naturally, in addition to their decorative aspects, each object must also offer services specific to a hotel room, in a way which is efficient, robust, safe and faithful to the hotel’s philosophy. They should be simple, universal and ergonomic in their use. Our products are inspired by this twofold expectation of practicality and aesthetics.

JVD offers a broad selection of equipment, lines and colours to adapt to your environment and make it unique. Thanks to our mastery of product design to production, JVD is the only manufacturer able to offer matching sets ranging from hand dryers to toilet roll dispensers by way of soap dispensers.

**BLACK COLLECTION**

Black has the virtue of endowing an object with a more qualitative value. Whatever the ambiance of the place, black products can fit in easily (and can be either discreet or highly visible). The matte aspect amplifies the qualitative side of the product and makes the solution less dirty and more scratch resistant. Ever in pursuit of solutions which can minimize our environmental impact, the black color has given us the opportunity to use recycled plastic.

**METAL COLLECTION**

The use of stainless steel and simple lines for this collection gives it a robust appearance. Conversely, the opening for a more carefully worked view of the levels adds a touch of refinement to the design. The final solution is a perfect match for heavy traffic locations.

**YALISS COLLECTION**

The more pronounced character of the Yaliss collection seeks to give your washrooms a new image between gentleness and liveliness. The products provide new responses to broader requirements: larger capacities, universal or removable cores and improved hygiene, whilst retaining all the qualities of the Cleanline collection (ease of use, personalization, etc.). To date, this is the most complete collection for fitting out your washrooms.
CLEANLINE METAL GREY COLLECTION

The metallic finish is essential, classic and highly valued. This collection personalizes and enhances any place where it is installed. It’s truly the finishing touch! Rarely discreet, the use of light and sheen serves to underscore the careful design of the products.

CLEANLINE WHITE COLLECTION

The Cleanline collection was designed to be both classic and timeless. Its rounded shapes and straight sides allow it to fit seamlessly and discreetly into any type of washroom. Its bevelled edges endow it with modernity and character. Its charcoal grey base seems to lighten up the volume. The collection’s success hinges on the possibility of personalizing the appliances with our clients’ logos, as well as their simplicity and practicality.

KIDS COLLECTION

The purpose of our Kids range is to help children to learn the basics of hygiene from a very young age. By making the experience of washing and drying their hands more enjoyable, JVD provides a comprehensive solution, suitable for environments visited by children. Thanks to our powerful yet quiet hand dryers, JVD also helps to keep washrooms clean, with no wet paper roll on the floor and no clogged pipes. By limiting their use of paper products, kids can also participate in the creation of a greener, more sustainable future by reducing the carbon footprint associated with using paper.
